the city of Bactoo. Had it done so the would have been terrible. The tence of Grinnell, Iows last year showed Measter may be produced in a town which Mrs. H. phine i is built a windle at let M: Multinaman processing Mrs. H. phine i is built a windle at let M: Multinaman processing Mrs. H. phine i is built a windle at let M: Mrs. H. phine i is bui

Long been noticed and often mentioned. Holkins wants to spill r money is that multifude will tell a lie, particularly in a swar stater own after dropted of mapsiangner in the content of the sensation of

the their bobby are 'depocratic papers' they going to do with such journals Melagheld Republican and many more? By the Boston Advertiser the governor of one B. F. Bu ler-14 called a MICH MEN'S SONS

We had by telegraph a few lars ago an we had by thegraph a no money as a May 2 account of how an estate of \$2 00 000 left ten was 1 m May 2 c tain the 1 1 wing junt or twelve years ago to a New York main ac turer to four menor some had been alm st | Si L' the American policy of protection is seamed wholly a just level in rich as living 15; and ated than on a hostimi presents on of their condition under protection in comparison or condition under protection in comparison or condition under protection in comparison or condition under free trade. All the conditions of industry and life in the two countries are so different that no real comparison is possible.

If the condition is the two countries are so different that no real comparison is possible at home and abroad swallowed in a few factor of the two countries are so different that no real comparison is possible. at home and abroad shallowed in a few rears the magnitien former with it to magnit en former with it to magnit en former with it to make the mass do establish his this limitation and income an illogical argument. It is undentably the state of the state dron in the world. And not the last melancholy part of the atory is that the same multiple of the atory is that the same of th Seed and commonic systems of the two countries, which systems respectively are the outpropth and product of natural endum canada, and not a all their seeds to recket on upon the effect. The length of the down see the sons of rick may not r Engand And it is not supposing The fills of i cause, is lame indeed. Engand an old one Her own lines apport one-half for population to the father in time cases out of ten 1: the father in time cases out of ten 1: the cause of the son's a cee. The red's sing sum is exposed to a limited temptations which never consistence in the resolution of the son's account to the son's accou Ble never appeal to the boy without money a builter the disadvantage, then of having Glittering batts are set ir hun import her food and at the same time to ods cheap enough to commune the may safely disregard that prudence which is markets. These concitions make the may safely disregard that prudence which is may safely disregard that prudence which is may safely disregard to ordinary men, he easily and o'con leading to the propulation and wealth have

always open to the righ voung man no matter what his excesses have been And so kept ados, in the polite and moral circle by the po-sition of his family or by gracious entertain habits of fashion In America where the con maker. Operances and abundance relations from the control of the second wise father who loads fortune upon his son by littics; who first teaches him prodence in small things, who does not at once heap upon him shilities for which his capacities are not fitted by training. A youth called suddenly from a life of careless pleasure to the control of great affairs is indeed a pitlable object. But many fathers go on paling up money and it int. ing fondly that by giving their sone a perpetual holiday and a liberal allowance during their own lifetime, and a great fortune at its mid, they are "establishing them in the world". Man of wealth should romember that their sons are the heirs of great responsibilities, and from the cradle up they should train them to resist

> Good people of New York, so a dispatch says, are about to establish a mission for Chinese of whom there are now about seven thousand m as have some good people in Portland, forget signary work. It is a remarkable fact that while two or three night schools are maintained by religious effort in this city, there is not one where a little white boy who carries telegrams Beligious effort is too busy working on the

the former and to bear the latter manfully and

conscient tously

Mrs. Billy Emerson, so a dispatch says, is go Samphoiseers, and pro-to England This recalls a story 'Now Hitle The a mint on food pro-lids," said a school committee man, "how to ligar inequipmentaring many of you have heard of Mr Every hand went up. "Ah," and the committee and the manufe his greets 'see how intelligent our being the conditions.

Boston children are I assure you gwalleuten, maintains free boys. Now will tome little lad tell me what is table to pare proper. It, Emerson's greatest work?" The sophy

Pacific shall have been supplemented by the connection with California from Portland, trains will run through from Bt Paul to San Francisco via Oregon in the same time now made by the Union and Central Pacific from St. Paul to Ban Francisco via Portland will be at an average speed of less than thirty miles

It is thought by river men that we shall have ms. They depond no no great freshet this year. The snows in the wountains are supposed not to be heavy, while congress. gradually and allows the water to run off withgeneral are not infallthic and a few hot days ories. We would advise people living to the

The Cherokees of Indian territory have leased part of their domain to a stock rawing company at an aimual rental of \$100000. This tribe has become completely civalized The people own and enitivate fine farms and here in good style. There is a large circle of highly cultivated people among tasm who magnisin a really elegant society. The tribe

comparatively few pure Indians among them es, it may stoop to the earth in greater auccess than Capt Cleveland Rookwell, marking desolation in its path, then whose last work representing one of the striking views on the Columbia river just be him, the worter cometinue reaction true incenses appears, complete to majority of ne on hour. Agains so prodigious a hight and proportion and nice effects of dis-likings reared by human hands can tance sky and water. But with all his art the

Secretary Tellor is doing excellent work in ment sand fraudulently. If these frauds only attract the attention of Congress to the Lad laws which are so loose as to permit them it will be well. It is understood that the secr. tary proposes to sake oughters bent winder to theroughly overhaul the lind section
